## Career Summary

Solution-oriented **multidisciplinary** technology professional and **Computer Science** graduate with experience in **software development**, **IT support**, and **digital systems** implementation. Skilled in building **web** and **mobile** applications, **troubleshooting** IT infrastructure, and **supporting** users in adopting **digital** tools. Experienced working in **Agile teams**, delivering **user-centered systems**, and producing technical **documentation** and training resources. Actively engaged in initiatives promoting digital skills and **STEM** education, and committed to applying technology to improve services and expand access to **technology and** digital opportunities in underserved communities.

## Technical Skills

- Programming and Web development: Python, C, C++, JavaScript, PHP, Java, HTML5, CSS3
- Frameworks & Libraries (Next.js, React, React Native, Django, Tailwind, Bootstrap)
- IT Support & Troubleshooting (Hardware, Software, LAN, User Support)
- CMS & Low-code Tools (WordPress, Strapi, Zoho Creator, FlutterFlow, Framer)
- Version Control & CI/CD (Git, GitHub, GitHub Actions)
- Database Systems (MySQL, PostgreSQL, Oracle)
- UI/UX Design: Figma, Visily (Wireframing, Prototyping)
- Methodologies: Agile/Scrum, User-Centered Design
- Data Analytics
- Documentation

**Professional Skills:** Leadership, Communication, Teamwork, Resilience, Capacity Building, Problem Solving, Adaptability, Time Management, Self-Directed Learning

## Professional Experience

**Software Engineering Apprentice - Refactory Academy — Kampala, Uganda June 2025 - December 2025  
June 2025 – Jan 2026**

- Developed full-stack **web** and **mobile** applications using **React**, **React Native**, and **Django**
- Served as **Design Lead**, contributing to **UI/UX** design for the **Rugyeyo Farm Management System** to **digitize** and **streamline** farm operations, **improving** record management and operational efficiency
- Built responsive frontend interfaces for web and mobile applications using **React**, **React Native**, **Expo**, and **Tailwind CSS**, integrating **APIs**
- Collaborated with backend developers to design **database schemas** and **system architecture**
- Worked in **Agile teams** to gather requirements, participate in **sprint planning**, **code reviews**, **demos**, and deliver **user-centered** solutions
- Rotated in **Scrum roles** including **Scrum Master** and **Product Owner**, contributing to team coordination and delivery.
- Produced technical **documentation**, **user guides**, and **reports**, and supported user onboarding and **training**.
- **Collected** and analyzed **user feedback** to **improve system functionality** and **user experience**

**Technologies:** React, React Native, Expo, Tailwind CSS, Django, PostgreSQL, Git, GitHub, Visily, Trello, Postman

### **Website and Systems Developer – Kutya Mukama Nursery & Primary School (2025)**

- Developed a lightweight **School Management System** to replace manual record-keeping, improving management of pupil records, staff data, visitor logs, attendance, and payment tracking using **Django, Next.js, Supabase** and **PostgreSQL**.
- Built a responsive **website** to address limited online visibility, improving communication with parents and increasing the school's **digital presence**.

### **ICT Support Volunteer– Kampala Capital City Authority (KCCA) (Oct 2024 – Mar 2025)**

- Provided first- and second-level **IT support** to staff across multiple departments in a public-sector environment
- **Troubleshoot hardware, software, and LAN** connectivity issues to ensure reliable system performance.
- Guided staff on safe use of digital tools and effective system usage.
- Collected feedback and translated user-reported problems into actionable technical solutions and system improvements.

### **Digital Skills Trainer (Hybrid) Kutya Mukama Nursery & Primary School (2023 – 2025)**

- Delivered online ICT training to teachers on essential **digital tools, online safety, and digital collaboration**.
- **Designed** promotional materials to support school communication and advertisement .
- Provided **ICT support**, assisting staff with document preparation, **and digital communication tools**.
- Supported adoption of digital tools to improve teaching, administration, and collaboration.

### **Web Development Intern – CodeClause Pune, India (Remote) (Jun – Jul 2023)**

- Completed portfolio projects showcasing **frontend** skills and remote **collaboration**

### **Technical & Vocational Education and Training (TVET) Instructor – Ntinda Vocational Training Institute Kampala, Uganda | 2019 – 2021**

- Delivered theory and practical training using competency-based methodologies
- Prepared instructional materials and conducted continuous assessments
- Used ICT tools to support learning and track student performance

### **Projects & Hackathons**

#### **Farm Management Information System (Mobile App + Web App), Public facing Website – Rugyeyo Farm(2025-2026)**

- Solved inefficiencies in farm record-keeping by designing and developing user interfaces of the Web App, Mobile App and website to manage farm operations and public-facing information.
- Improved reporting and operational efficiency across farm processes.

### **School Management System- KutyaMukama Nursery and Primary School (2025)**

- Streamlined school administration by designing and implementing the frontend and backend to manage pupil records, payments, staff, attendance, and visitors.
- Reduced manual processes and improved record accuracy.

### **SheAware Organisation Website (2026)**

- Contributed to website development to empower girls and women with digital skills, improving access to digital literacy resources.

### **Bancassurance Agent Management System – GirlCode Hackathon (2025)**

- Designed built user interfaces of a system to track agent performance and policy sales; and solve the problem of fragmented processes using Next.js, Figma,visily, presented as part of a competitive hackathon.

### **Laundry App - Rapid Clean, Nigeria (2024)**

- Solved the problem of manual and time-consuming laundry bookings by building a user-friendly frontend using React, allowing customers to easily schedule and manage laundry services online.

### **(Seethio) Tourism Web App – Africa Agility Girls in Tech Bootcamp Hackathon (2023, 1st place)**

- Contributed to requirements gathering, data collection, and project planning as part of the team.
- Collaborated on building a tourism-focused web app, demonstrating teamwork, problem-solving, and full project Lifecycle skills.

### **Women in Tech Digital Home – Africa’s Talking Hackathon (2024, 2nd Runners-Up)**

- Built a platform supporting women in tech; contributed to digital inclusion and empowerment initiatives.
- Designed and implemented features using a low-code platform (Framer) to streamline development and enhance Usability

### **Doctors Booking App – Africa’s Talking Summit Hackathon (2024, 1st Runners-Up)**

- Solved the problem of difficulty in finding and booking doctors quickly by designing and building a user-friendly frontend using Figma and Flutterflow.
- Demonstrated UI/UX design, frontend development, and rapid prototyping skills.

### **Research & Publications**

#### **Lead Author, "Challenges to Prepare the Parallel Corpus for Luganda Language"**

**Published in:** Applying AI-Based Tools and Technologies Towards Revitalization of Indigenous and Endangered Languages. Studies in Computational Intelligence, vol 1148, pp. 137–147. Springer Nature.

Focused on data preparation challenges for AI-based language systems

DOI: [10.1007/978-981-97-1987-7\\_11](https://doi.org/10.1007/978-981-97-1987-7_11)

### **Community Impact & Leadership**

- Founder, Girls in STEM & Digital Kids Uganda – Mentoring young girls and children in STEM, ICT, and digital safety through community sessions
- Operations & Programs Coordinator, SheAware – Supporting digital skills initiatives for underserved girls and young women

### **Education**

- Software Engineering Apprenticeship - Refactory Academy, June 2025 - January 2026

- B.Sc (Hons) in Computer Science – KIIT University, Bhubaneswar, India (2024)
- Diploma in Instructor & Technical Teacher Education – Kyambogo University
- National Diploma in Water Engineering - Uganda Technical College- Kyema

### **Certifications & Additional Training**

- Software Development (Frontend) – Technology for Social Change and Development(Tech4Dev)(2023–2024)
- Web Development – SheCodes Foundation (2023)
- Low-code Development (Zoho Creator) – Zoho (2024)
- Introduction to Cybersecurity (Africa Agility Micro Credential Course) - Africa Agility (2025)
- Artificial Intelligence – Africa Agility (2023)
- Digital Awareness – Cisco Networking Academy (2024)
- Introduction to Data Analytics – IBM/Coursera (2023)
- Cybersecurity - (Women Techsters bootcamp) -Technology for Social Change and Development(Tech4Dev)-2023

### **Languages**

- **English** (Fluent, Tech Documentation, and Communication)
- Luganda (Native)
